📞 ***Call / WhatsApp:* 9563366057**

📍 ***CyberTech Computer Center***

Chakbhabani Ghoshpara, Balurghat, Dakshin Dinajpur, West Bengal

🚀 **শিখুন Professional Mobile App Development**
Android & iOS-এর জন্য Modern Mobile App তৈরি করার Practical Training।

***ফি:* 💰 Course Fee: ₹1,50,000 (Installment available)**

🕒 **Course Duration: 12–36 Months**

- ✓ **React Native**
- ✓ **React & JavaScript**
- ✓ **UI Design & API Integration**
- ✓ **Real Project Development**
- ✓ **Android App Development**
- ✓ **Practical Coding & Development Skills**

🎯 **Beginner থেকে Advanced Level পর্যন্ত শেখার সুযোগ**

📍 **CyberTech Computer Center**
Chakbhabani, Ghoshpara, Balurghat

📞 **Call / WhatsApp: 9563366057**

🔥 **আপনার Coding Skill-কে Professional App Development-এর দিকে নিয়ে যান!**

📱 **CYBERTECH COMPUTER CENTER**

🚀 **“AI App ব্যবহার করছেন... এবার AI-Powered App তৈরি করতে শিখুন!”**

🤖📱 AI-Based Advanced React Native App Development

🚀 AI-Based Advanced React Native App Development

Zero → Advanced → AI-Powered Professional Mobile App Developer

🔥 “শুধু App Development নয়—AI ব্যবহার করে Smart Mobile App তৈরি করতে শিখুন!”

বর্তমান Technology এবং *AI-এর যুগে শুধু Coding জানা যথেষ্ট নয়। * একজন Modern App Developer-কে জানতে হবে কীভাবে *React Native + AI + API + Database + Cloud + Real Project Development* একসঙ্গে ব্যবহার করে Professional Mobile Application তৈরি করতে হয়।

এই Advanced Course-এ React Native-এর সঙ্গে *AI-Assisted Coding, Generative AI API, AI Chatbot, AI Search, AI Recommendation এবং Intelligent App Features* নিয়ে Hands-on Project-Based Training দেওয়া হবে।

🎯 এই কোর্স কার জন্য?

* যারা Advanced Mobile App Development শিখতে চান

* যারা JavaScript / React জানেন

* যারা React Native Developer হতে চান

* BCA / MCA / B.Tech / Diploma শিক্ষার্থী

* Web Developer যারা Mobile Development-এ যেতে চান

* Freelancing করতে আগ্রহী

* নিজের Startup / Business-এর App তৈরি করতে চান

* যারা AI-এর সঙ্গে App Development শিখতে চান

* যারা Portfolio-তে Real-World Project যোগ করতে চান

* যারা ভবিষ্যতের *AI-Powered Developer* হতে চান

🌟 Beginnerদের জন্যও Structured Learning Path থাকবে

Basic JavaScript → React → React Native → Advanced Development → AI Integration

PART-1: Modern JavaScript for App Development

Programming Foundation

- * Programming Concept
- * Variables & Data Types
- * Operators
- * Conditional Statements
- * Loops
- * Functions
- * Arrays
- * Objects
- * Error Handling
- * Debugging

Modern JavaScript

- * ES6+
- * let / const
- * Arrow Functions
- * Template Literals
- * Destructuring
- * Spread / Rest Operator
- * map()
- * filter()
- * reduce()
- * find()
- * Modules

- * Promises

- * Async / Await

- * JSON

- * API Data Handling

PART-2: Advanced React

React Fundamentals

- * JSX

- * Components

- * Props

- * State

- * Events

- * Forms

- * Conditional Rendering

- * Lists

- * Reusable Components

Advanced React

- * useState

- * useEffect

- * useMemo

- * useCallback

- * useRef

- * Custom Hooks

- * Component Architecture

*** State Management**

*** Performance Optimization**

🎯 Practical

একটি ***Reusable React Component System*** তৈরি।

📱 PART-3: Advanced React Native

React Native Architecture

*** React Native কী?**

*** Cross-Platform Development**

*** Android & iOS Concept**

*** React Native Architecture**

*** Expo**

*** Expo Development Build**

*** React Native CLI**

*** Project Structure**

*** Native Modules Concept**

Core Components

*** View**

*** Text**

*** Image**

*** ScrollView**

*** FlatList**

*** SectionList**

*** TextInput**

- * **Pressable**
- * **Modal**
- * **ActivityIndicator**
- * **Keyboard Handling**
- * **Safe Area**

🎨 **PART-4: Advanced UI/UX & Figma to React Native**

Professional UI Development

- * **Responsive Mobile Design**
 - * **Flexbox**
 - * **Dimensions**
 - * **Typography**
 - * **Spacing**
 - * **Icons**
 - * **Cards**
 - * **Forms**
 - * **Custom Buttons**
 - * **Reusable Components**
 - * **Dark / Light Theme**
 - * **Platform-specific UI**
- ### ### **Figma to React Native**
- * **Figma Design Analysis**
 - * **Design-to-Code Workflow**
 - * **Pixel-Accurate UI**

- * Responsive Screen
- * Component Reusability
- * Design System Implementation

🤖 AI-Assisted UI Development

- * AI দিয়ে UI Structure তৈরি
- * AI দিয়ে Component Generation
- * AI দিয়ে Styling Assistance
- * AI দিয়ে UI Improvement
- * AI-assisted Debugging

🧭 PART-5: Advanced Navigation

- * Stack Navigation
- * Bottom Tab Navigation
- * Drawer Navigation
- * Nested Navigation
- * Dynamic Navigation
- * Passing Parameters
- * Authentication Navigation
- * Protected Routes
- * Deep Linking
- * Universal Linking Concept
- * Navigation State Management

🎯 Practical

একটি *Multi-Module Professional Mobile App Navigation System* তৈরি।

PART-6: Advanced API & Backend Integration

API Fundamentals

- * REST API
- * HTTP Methods
- * GET
- * POST
- * PUT
- * PATCH
- * DELETE
- * Headers
- * Status Codes
- * JSON

Advanced API Integration

- * Axios
- * API Service Layer
- * Request Interceptors
- * Response Interceptors
- * Loading State
- * Error Handling
- * Pagination
- * Search
- * Filtering
- * Sorting

- * File Upload

- * Authentication API

Backend Integration

- * Node.js Concept

- * Express.js Concept

- * REST API Development

- * MongoDB Concept

- * Firebase Integration

PART-7: Advanced Authentication & Mobile Security

Authentication

- * Registration

- * Login

- * Logout

- * JWT

- * Access Token

- * Refresh Token

- * Protected Screens

- * Session Management

- * Role-Based Access Concept

Security

- * Secure Storage

- * Sensitive Data Handling

- * Input Validation

- * API Security Basics**
- * Authentication Security**
- * Common Mobile Security Mistakes**
- * Environment Variables**
- * Production Security Practices**

PART-8: Database & State Management

Database

- * Database Fundamentals**
- * MongoDB**
- * Firebase**
- * CRUD**
- * Data Modelling**
- * Cloud Data Concept**

State Management

- * Context API**
- * Redux**
- * Redux Toolkit**
- * Global State**
- * Store**
- * Actions**
- * Reducers**
- * Async Operations**
- * API State Management**

📱 PART-9: Advanced Mobile Features

Hands-on Features

- * 📷 Camera Integration
- * 🖼️ Gallery
- * 📍 GPS / Location
- * 🗺️ Maps
- * 🔔 Push Notifications
- * 📁 File Upload
- * 📁 File Management
- * 📞 Phone Integration
- * ✉️ Email Integration
- * 🔗 Deep Linking
- * 📱 Social Sharing
- * 🔒 Permissions
- * 💳 Payment Integration Concept

🤖🔥 PART-10: AI-Powered React Native Development

★ SPECIAL AI MODULE

এটাই এই **Course**-এর অন্যতম গুরুত্বপূর্ণ অংশ।

AI-Assisted Development

- * AI Coding Assistant
- * AI দিয়ে Code Generation
- * AI দিয়ে Code Explanation

- * AI দিয়ে Bug Detection
- * AI দিয়ে Debugging
- * AI দিয়ে Refactoring
- * AI দিয়ে Performance Improvement
- * AI দিয়ে Documentation
- * AI দিয়ে Test Case Generation
- * AI Development Workflow

🧠 AI API Integration

- * Generative AI Concept
- * AI API কী?
- * Mobile App থেকে AI API Call
- * Prompt Engineering Basics
- * AI Response Handling
- * Streaming Response Concept
- * Chat History
- * Token / Usage Concept
- * AI Error Handling

🤖 PART-11: AI Features in Mobile Apps

AI Chatbot

- * Chat Interface
- * AI API Integration
- * Conversation History
- * Streaming Response

- * User Context

- ### 🔍 AI Smart Search

- * Natural Language Search

- * Intelligent Search Concept

- * AI-based Results

- ### 🎯 AI Recommendation

- * User Preference

- * Recommendation Logic

- * AI-assisted Personalization

- ### 📖 AI Study Assistant

- * Student Question Answering

- * Study Assistant

- * AI Notes

- * Content Generation

- * Learning Assistance

- ### ✍️ AI Content Generator

- * Text Generation

- * Summary

- * Rewrite

- * Content Assistance

- # 🧠 PART-12: Advanced AI Concepts for Developers

- ### Introduction to Modern AI Development

- * Generative AI

- * LLM Concept
- * Prompt Engineering
- * Context Window
- * Tokens
- * Embeddings — Introduction
- * Vector Database — Introduction
- * RAG — Introduction
- * AI Agents — Introduction
- * Function Calling Concept
- * AI Tool Integration

Developer Focus

শিক্ষার্থীরা শিখবে কীভাবে একজন **Mobile Developer** হিসেবে **AI Technology**-কে নিজের **Application**-এর সঙ্গে যুক্ত করা যায়।

PART-13: Debugging, Testing & Performance

Debugging

- * Console Debugging
- * Network Debugging
- * API Error Analysis
- * React Native Error Handling
- * Native Error Understanding
- * Crash Analysis

Testing

- * Testing Concept
- * Unit Testing Introduction

- * **Component Testing Introduction**

- * **API Testing Concept**

- * **Test Case Creation**

Performance

- * **Rendering Optimization**

- * **FlatList Optimization**

- * **Memory Management Concept**

- * **Image Optimization**

- * **API Optimization**

- * **App Performance Analysis**

AI-Assisted Debugging

AI ব্যবহার করে:

- * **Error Explanation**

- * **Root Cause Analysis**

- * **Possible Fix**

- * **Code Improvement**

PART-14: Production Build & Deployment

Android

- * **Development Build**

- * **APK**

- * **AAB**

- * **Release Build**

- * **App Signing Concept**

- * Versioning**

- * App Icon**

- * Splash Screen**

- * Environment Configuration**

Deployment

- * Production Configuration**

- * Google Play Store Publishing Process**

- * App Listing Concept**

- * Release Management**

iOS

- * iOS Build Concept**

- * App Store Deployment Concept**

PART-15: Git, GitHub & Professional Workflow

- * Git Fundamentals**

- * Repository**

- * Commit**

- * Branch**

- * Merge**

- * Pull Request**

- * GitHub**

- * Project Documentation**

- * README**

- * Version Control**

*** Team Development Workflow**

*** Code Organization**

 AI + Git Workflow

*** AI-assisted Commit Messages**

*** AI Code Review Concept**

*** AI Documentation**

*** AI-assisted Refactoring**

 PART-16: REAL-WORLD AI PROJECTS

 PROJECT-1: AI Student Learning App

Features:

*** Registration / Login**

*** Student Profile**

*** Course List**

*** Video Section**

*** Notes**

*** Progress Tracking**

*** AI Study Assistant**

*** AI Question Answering**

*** API Integration**

*** Database**

 PROJECT-2: Smart E-Commerce App

Features:

- * User Registration**

- * Product List**

- * Product Details**

- * Search**

- * Category**

- * Cart**

- * Wishlist**

- * User Profile**

- * Order System**

- * API Integration**

🤖 AI Features:

- * AI Product Search**

- * AI Recommendation Concept**

- * Smart Product Assistant**

🤖 PROJECT-3: AI Personal Assistant App

Features:

- * AI Chat Interface**

- * Chat History**

- * User Profile**

- * AI API Integration**

- * Smart Search**

- * Voice Feature Concept**

- * Personalised Response Concept**

🚀 FINAL CAPSTONE PROJECT

“IDEA → AI → APP → PRODUCTION”

শিক্ষার্থী নিজের একটি **Application Idea** নিয়ে সম্পূর্ণ **Development Cycle** অনুসরণ করবে।

Workflow:

Idea

↓

Requirement Analysis

↓

UI/UX Design

↓

Figma → React Native

↓

React Native Development

↓

API Integration

↓

Database

↓

Authentication

↓

AI Integration

↓

Testing

↓

Performance Optimization

↓

APK / AAB Build

↓

Deployment

 PART-17: Career & Freelancing Preparation

Career Roadmap

*** React Native Developer কী?**

*** AI-Powered Mobile Developer কী?**

*** Job Preparation**

*** Interview Preparation**

*** Technical Interview Questions**

*** Coding Practice**

*** Portfolio Development**

*** GitHub Profile**

*** Project Presentation**

*** Resume Preparation**

Freelancing

*** Client Requirement বোঝা**

*** Project Scope**

*** Project Estimation**

*** Mobile App Proposal**

* **Portfolio তৈরি**

* **Client Communication**

* **Project Delivery Workflow**

 **100% PRACTICAL & PROJECT-ORIENTED APPROACH**

শিক্ষার্থীরা **Hands-on** ভাবে শিখবে:

- ✓ **Mobile UI Development**
- ✓ **Figma to React Native**
- ✓ **API Integration**
- ✓ **Authentication**
- ✓ **Database**
- ✓ **Redux Toolkit**
- ✓ **Push Notification**
- ✓ **Camera / Location / Maps**
- ✓ **AI API Integration**
- ✓ **AI Chatbot**
- ✓ **AI Smart Features**
- ✓ **Debugging**
- ✓ **Testing**
- ✓ **Performance Optimization**
- ✓ **Git & GitHub**
- ✓ **APK / AAB Build**
- ✓ **Real-World Project Development**

🌐 **ONLINE + OFFLINE CLASS AVAILABLE**

🏠 **OFFLINE CLASS**

CyberTech Computer Center-এ সরাসরি Practical Training।

💻 **ONLINE CLASS**

নিজের জায়গা থেকে **Live Online Learning**-এর সুযোগ।

🧠 **CLASS AVAILABLE IN 3 LANGUAGES**

🇬🇧 **বাংলা**

সহজ বাংলায় **Concept + Practical**

🇬🇧 **English**

Technical English-এ Professional Learning

🇮🇳 **Hindi**

Hindi ভাষাতেও Class Available

🔥 **বাংলা | English | Hindi**

আপনার সুবিধামতো **Language** বেছে নিন।

🏆 **COURSE COMPLETION**-এর পরে

আপনি শুধু **React Native**-এর **Syntax** জানার মধ্যে সীমাবদ্ধ থাকবেন না।

আপনার **Learning Journey**:

JavaScript

→ ***React***

→ ***React Native***

→ ***Advanced App Development***

→ ***API & Backend***

→ ***Database***

→ ***Authentication***

→ ***AI Integration***

→ ***Real-World Projects***

→ ***Production Build***

🎯 লক্ষ্য:

> **“Certificate-এর পাশাপাশি এমন Project তৈরি করুন, যা আপনার Skill দেখাতে পারে।”***

🔥 কেন CyberTech Computer Center?

❌ শুধু Theory নয়

❌ শুধু Certificate নয়

❌ শুধু Copy-Paste Coding নয়

✅ Practical Learning

✅ Project-Based Training

✅ AI-Based Development

✅ Real-World Application

✅ Modern Technology

✅ Beginner → Advanced Learning Path

✅ Online + Offline

✅ বাংলা + English + Hindi

🚀 **“AI App ব্যবহার করছেন... এবার AI-Powered App তৈরি করতে শিখুন!”**

🤖📱 **AI-Based Advanced React Native App Development**

একটি Modern Skill-এর মাধ্যমে Mobile App Development + AI Technology একসঙ্গে শিখুন।

🔥 React Native

🔥 Advanced JavaScript

🔥 API & Backend

🔥 Database

🔥 Authentication

🔥 AI API Integration

🔥 AI Chatbot

🔥 Smart AI Features

🔥 Real-World Projects

🔥 APK / AAB Build

🔥 Git & GitHub

🔥 Career & Freelancing Guidance

🎯 Beginner → Advanced → AI-Powered App Developer
